FOREWORD

Our children and young people are faced daily with enormous temptation to get involved in sexual activities even before they know what it is.

Equipping them EARLY with age-appropriate, culturally relevant, scientifically accurate and spiritually edifying Sex Education (**Wholesome Sex Education**):

- *helps to empower them to take responsibility for their own health,*
- *prevents them from being victims to Sexual predators and*
- *helps them escape the consequences of premature sexual activities such as sexually transmitted infections, including HIV/AIDS, teenage pregnancy, teenage parenthood, abortion and its complications, genital cancers, and death.*

The Scripture instructed that parents should TRAIN their children in the way they SHOULD go and when the children grow up, the instructions will not depart from them. Proverbs 22:6

However, it has been noted, sadly, that most parents, teachers and advocates do not really know the ‘THE WAY THESE CHILDREN SHOULD GO’ let alone training them in the same.

Some others who know what to do miss the correct approach and timing.

We have two choices; to fold our arms and watch things run its degenerating course or get involved to change the tide.

Wholesome Sex Education for Children and Adolescents Training is our response to this very important and difficult to ignore issue.

A little CONSISTENT drop can make an ocean. It is better to do something that will positively impact than do nothing at all.

It is this passion that gave birth to the mandate to start involving and collaborating with parents, teachers and advocates by training them on how to teach Wholesome Sex Education.

We have taken it upon ourselves to provide the missing link and bridge the gap; to raise sexually informed children and Adolescents who will be able to take responsibility for their sexual health and identify a sexual predator, including paedophiles, and quickly expose them before they cause havoc.

We have taught the content of this manual to thousands of people in various places and virtually.

This content is also available on our e-learning portal where you will be able to get certified after completing the course.

All these you get for FREE. This is to allow everyone full access without any form of limitation.

Promoters of sexually immoral contents make it available for FREE, we feel we cannot do less. We rather need to come together to saturate the world space, including the internet, with sexually pure contents.

This is what we have brought to the table at CASRHA Foundation.

Our goal is that No Child or Young Person who Crosses our Path will Fall Victim to Sexual Immoralities.

If we can equip them to win the battle of sex, we would have helped them to win the battle of life.

We also accept invitations to teach in religious organizations, campuses, and in stakeholders' gatherings. You can reach out to us using this link, <https://wa.me/2348150989646>, or send me an email, dr.bjseyi@casrhafoundation.org

Overview of the Wholesome Sex Education Training

You are welcome!

Main Training Objective:

At the end of this course, you would have learnt in practical terms *“How to teach age-appropriate, culturally relevant, scientifically accurate and spiritually edifying sex education”*.

Course Overview:

The certificate course is made up of six (6) Modules.

Module 1 is introductory as it unveils some scientific facts regarding the burden of sexually transmitted infections, adolescent pregnancy and abortion, etcetera.

Module 2 explores the content of comprehensive sex education (CSE) and brings to fore the advantage of Wholesome Sex Education over the CSE.

Module 3 is set to equip the learner with requisite elements needed to effectively and efficiently teach Wholesome Sex Education.

Module 4 deals with the right approach to age – and gender – appropriate sex education, including sex education for vulnerable children and adolescents.

Module 5 exposes the problems and challenges with puberty and teaches how you can help adolescents navigate this beautiful period of their lives without injuries; it also addresses the problem of pornography, masturbation and feelings of guilt.

Module 6 is the concluding session that summarises the content of the training with passionate appeal to the trained participants to get on the field with SMART goals despite any limitation.

Module 1: Understanding the Burden

This document contains the first of the six (6) modules.

At the end of this introductory module, you should be able to understand clearly the need to be deliberate about teaching wholesome sex education to children and adolescents.

1.1. The Burden of Sexually Transmitted Infections

I will take you through some scientific facts from the World Health Organization (WHO) Factsheet.

The following are scientifically researched facts:

- **At least 1 million people get sexually transmitted infections (STI) every day.**
- **Meaning that not less than 700 people get STI every minute.**

Can you imagine?

- **At least 500 million people between the ages of 15-49 years have genital infections with Herpes Simplex Virus (HSV) every year.**
- **This is a virus that is usually transmitted sexually and causes bizarre, ugly-looking swellings of the genitals.**

- Every year, at least 300, 000 women die from Human Papilloma virus (HPV) alone.

- HPV is a virus that is responsible for cancer of the cervix (cervical cancer).

Let me tell you the worrisome part,

The two foremost risk factors for infection with Human Papilloma virus (HPV) are EARLY INITIATION OR START OF SEXUAL INTERCOURSE and HAVING MULTIPLE SEXUAL PARTNERS/ sex with someone who has multiple sexual partners.

Are you aware of this?

- At least 30 bacteria, viruses and parasites can be transmitted Sexually.

- But eight (8) of these contributes the most to the problem: among the 8, four (4) are curable which include Syphilis, Gonorrhoea, Chlamydia and Trichomoniasis.

- The other 4, Hepatitis B, Herpes Simplex Virus, HIV and Human Papilloma virus are NOT curable.

While some of these infections can be contracted through other means, they are mostly sexually transmitted.

Are these not too scary to say the least?

1.2. The Burden of Adolescent Pregnancy

- Adolescent ages between 10 to 19 years.
- Do you know that approximately 12 million girls aged between 15-19 years give birth every year?

Just imagine!

This means 1 million teenage girls give birth every month.

- Among these, at least 10 million of the pregnancies are unintended.
- Complications from pregnancy are the leading cause of death in girls aged 15-19 years.
- Research also showed that at least 777,000 girls who are less than 15 years old give birth every year.

1.3. The burden of abortion

- Do you know that 5.6 million abortions are done every year by girls aged 15-19 years, and that 3.9 million out of these are usually done by quacks?
- Unsafe abortion can lead to death and many lasting health problems.

1.4. The burden of Lack of Parental Sex Education

- Research has shown that parents are the primary and most reliable source of information to children on sexuality issues.
- In fact, there are growing evidence showing that PARENT-CHILDREN COMMUNICATION ON SEXUAL ISSUES is positively associated with REDUCED levels of risk-taking among them.
- A 2016 Lancet study on adolescent sexual and reproductive health confirms that **providing young people with proper and accurate sexuality education EARLY reduces sexual risk behaviours and unintended pregnancy.**
- Despite these advantages, parents are still not providing adolescents with proper information on sex education.
- Some parents would even travel to distant places, leaving the children at the mercy of nannies and guardians.
- Such children who lack parental care and attention may end up becoming delinquent and most often would engage in early sexual intercourse.

1.5. The Burden of Guilt and Condemnation

- *Feelings of guilt and condemnation are usually the aftermath of sexual immoralities.*
- *Research has shown that almost everyone who had been involved in sexually immoral acts ended up feeling guilty about what they had done.*
- *These children grow up physically but with emotional and spiritual injuries from mistakes and wrong decisions.*
- *Guilt and condemnation are major hindrances to spiritual growth and emotional maturity.*
- *This is why some of them don't want to look at you in the eyes or even refuse to follow you for meetings.*
- *This burden may not be visible, but it is heavy on the affected children and persons. God must help you to help them.*

1.6. The Burden of Lives Slipping into Christ-less Eternity

- *You need to understand that these children and young adults are not animals. They have a soul that cannot die.*
- *Remember the teaching of Jesus Christ regarding the days of Noah in Matthew 24:37-39; the flood came and swept them all away. How many children made it to the ark of Noah? NONE!*

- *Children too can perish. They have a soul that cannot die.*
- *If any of them dies in sexual immorality, without an encounter with Jesus Christ, they will end up in hell.*
- *This should make you very sober! Extremely sober! That any child or young adult will go to hell after he or she has met you once or twice or more?*
- *This burden should wake you up and do this work while it is yet day (When they are still alive) because the night of death may come anytime, either for you or for them.*
- *Let us pray now that “Oh Lord, no child and an adolescent will meet me and still go to hell or fall victim to sexual immoralities, in Jesus’ name.*

THE END
